

These settings and features may not be available for all clients. If you do not see them, please contact your solution provider. Find (Magnifying Glass)

In 2020DOC, the **Find** button appears as non-selectable and grayed out until you select a specific table in the cabinet list. Clicking **Find** then opens the search window with the highlighted table selected.

From here, you can enter the specific search criteria you would like. Click the **Add** button to confirm the search criteria. Then, click **Search** to run the query.
